Tony Andrade
Software Engineer (Programmer) - Walmart - ISD

Bentonville, AR - Email me on Indeed: indeed.com/r/Tony-Andrade/4963bdef03415658

Disciplined, lifelong learner and Software Engineer with experience in designing and coding enterprise applications in an agile working environment. As part of our Global Integrated Fulfillment product team, ensured quality and bug free code in contributing to our CI/CD. Team collaboration and communication skills backed with motivation for results and flexible solutions. Comfortable with public speaking, people oriented and optimistic, self-starter, able to work alone comfortably and within groups. Focus is primarily in clean, efficient code that supports low latency, high performance global products and features in retail technology.
Willing to relocate: Anywhere
Authorized to work in the US for any employer

WORK EXPERIENCE

Software Engineer (Programmer)
Walmart - ISD - June 2016 to Present

Analyze, design, and code unit, and integration testing of business applications in an object-oriented environment

● Design and development of web services, while collaborating with teammates to adhere to best programming practices

● Integrate logic with a focus on performance optimization within application systems for the achievement of user approval, final corrections, and documentation.

● Evaluate requests to determine technical feasibility, and developed technical alternatives, while suggesting optimal solutions.

Tech Stack ● Java, Spring, Maven, Tomcat, DBeaver, SQL, HTML5, CSS3, JSON, Bootstrap3, Python, Linux, user experience and interface design, OO best practices and anything that satisfies my intellectual curiosity ● Agile methodologies (Jira), IDEs (Eclipse, Netbeans, Visual Studio), VCS (Git, SVN), requirements elicitation, clean and readable documentation ● SOA, Microservices, MVC, DAO, REST, web services, design patterns, Sonar
